TVWD elections decided by landowners

Butler, Colladay retain water district board of director positions

Results of the **Aug. 27 election** for two board of director positions on the **Temescal Valley Water District** (TVWD), were surprising. Not because of who was elected but because of the manner in which the election was conducted.

This is the first time in many years that a TVWD election has been contested. The four-year terms of office on the five-person board are staggered. If the expiring terms of office are not contested, the district foregoes the cost of an election and the incumbents are declared "re-elected." When a board resignation occurs mid-term, current directors will appoint a new director to fill the unexpired term.

In the Aug. 27 election, incumbents **Charles Colladay** and **John Butler** retained their board seats, fending off challenger **Jerry Sincich** by a vote count of: Butler -- **133,4666,346**; Colladay -- **115,945,325**; Sincich -- **65,814,816**.

Since the Registrar of Voters Facebook page only showed 688 mailed-in ballots received by 6:44 p.m. on election day, the number of votes was surprising.

Temescal Valley needs huge turnout for Oct. 1 CNUSD meeting

By KELLI NOSS

WeAreTV Education Committee Chairman

It appears **Temescal Valley** is gaining ground in its fight to save the **CNUSD-owned property** for a high school in Temescal Valley.

This is largely because of the attendance by the 75 or so of you at the **Sept. 3 board meeting**. Your presence – even though very few were allowed to speak, sent a clear message, "Temescal Valley wants the high school it was promised 15 years ago."

It's expected that the school board will vote whether to declare the property surplus at its **Tuesday**, **Oct. 1** meeting. We need all of you at that meeting, plus even more of your friends and neighbors. (See the flier elsewhere in this newsletter.)

If you missed the Sept. 3 meeting, you can view it **HERE.** Our public comments start at about :51 and the board's discussion on the property begins at 1:52.

Finally, a huge debt of gratitude goes to our area Trustee **Bill Pollock**. He has staunchly supported a high school for Temescal Valley since before his election to the CNUSD Board in November 2016.

RE-ELECTED: John Butler (left), an eight-year member of the Temescal Valley Water District Board of Directors and Trilogy resident, and Charles "Charlie" Colladay, a board member since the district's formation in 1965 and a former citrus grower, retained their board positions in the Aug. 27 election.

With the assistance of Supervisor **Kevin Jeffries**' Chief of Staff **Jeff Greene**, we received an email forwarded from **Rebecca Spencer**, the Riverside County Registrar of Voters.

Spencer explained that TVWD is one of three water districts in the county that under **California Water Code 35003** still utilize the value of landowner assessments to determine election outcomes instead of registered voters. The other two are the **Fern Valley** and **High Valleys** water districts in the mountain communities of **Idyllwild** and **Banning**.

Spencer related by email, "We work with the Assessor's office to obtain the list of landowners and the value of their land. We then create ballots that are weighted based on the above code section (35003) and the value of their land. The total (assessed) value of land in the district is \$981,768,238."

TVWD, previously known as the **Lee Lake Water District**, was formed in 1965, almost 20 years before the first housing development was built in Temescal Valley – it's not surprising it was created as an assessment-based district. It is surprising with the residential development and population growth experienced by the district that it remains such.

TVWD General Manager **Jeff Pape**, in response to an email, said he doesn't consider the landowner district format outdated because it "provides a balance between the large landowners and the individual residences." It's not difficult to make the change from a landowner voting district to a resident voting district according to state Water Code Sections 35040-35060.

The district's secretary must determine if at least 50 percent of the property within the district is developed for residential, industrial or nonagricultural commercial use. If it is, then a petition can be circulated and must be signed by at least 25 percent of the district's registered voters requesting the change.

Milkweed needs special care now to encourage monarch migration

By TRACY DAVIS Milkweed to Monarchs Project Chairman

Hungry caterpillars? Temescal Valley is closing in on the last generation of **monarch butterflies**.

Generally, there are five generation cycles between March and October. During the warmest months, the cycle takes about 21 days. As it cools at night, that time can lengthen to 30 days.

Keep your native **narrowleaf milkweed** abundant to finish off the season strong. Remember ONE caterpillar can eat an entire gallon-sized milkweed before becoming a chrysalis. Your heavily munched native milkweed will look like green sticks. Surprise! -- it grows back between the generations. You can always get more at **7 Oaks Nursery**, our partner in the monarch project, to supplement an egg bombing.

Fall migration is just around the corner. For our 33-degree latitude, **Sept. 29** through **Oct. 11** the adults will group up and fly to the roosting sites along the coast. Hey, wait ... but don't we have monarchs later?

Adults will stay longer if the native milkweed hasn't gone dormant due to warmer temperatures. If there is milkweed available, the females try to lay eggs. During this migration you MUST cut back any non-native tropical milkweed each month between the end of October and February. Not sure how tropical milkweed looks? Here's a photo.

Keeping it cut back mimics the natural cycle of the native milkweed,

encouraging the migration of butterflies to the coast. Better yet, swap out all tropical milkweed, then there's no remembering to cut it back each month, which is extremely hard to do when flowering in December. Feed the adults to make them strong for migration -- make sure you have flowering nectar sources.

I have three presentation dates this fall:

- 7 Oaks Nursery, **Sunday, Sept. 29**, 10 a.m. and noon.
- Riverside Corona Resource Conservation District (RCRCD) in Riverside, Saturday, Oct. 12.
- Sycamore Creek Interpretative Center (SCIC), Saturday, Oct. 26.

Terramor residents will have a couple of presentations for their HOA on **Sept. 24** and **25**. Want a presentation for your community or organization? Just email me:

tracycyto@yahoo.com

TVWD ELECTION ...

CONTINUED FROM PREVIOUS PAGE

Petitioners have six months to collect the necessary signatures, which then must be verified by the county Registrar six months prior to the district's next general election.

Once the signatures are verified, the petition is delivered to the district and at the next regular meeting, the board of directors must adopt a resolution specifying all future elections will be conducted as a resident voting district instead of a landowner voting district.

From that point forward, candidates seeking election and incumbents seeking re-election to the board will be required to be residents of the district and registered voters.

Pape said he does not know the percentage of developed land within the district, but it might be close to or over 50 percent with the development of Terramor. "It might be worth looking into prior to the next election cycle," he said. He also noted there was still a large amount of undeveloped acreage in the district, including a vast amount in the Cleveland National Forest.

Sheriff shares Temescal Valley crime stats for June, July, August

During the September Temescal Valley Municipal Advisory Council meeting, Lt. Donovan Brooks of the Lake Elsinore Sheriff's Station gave a detailed report on Part I crimes that occurred here in June, July and August.

Part I crimes include serious felonies;

Part II crimes are non-serious felonies and all misdemeanors.

He said the station received **478 calls** for service from Temescal Valley during August – 49 more calls than received in July.

Thirty-two calls in August were for Part I crimes. There were no homicides, arsons or rapes. Here is the breakdown:

Assaults -1 in June, 4 in July and 4 in August. Burglaries -4, 4 and 5. Thefts -12, 17, and 10. Strong-armed Robbery -0, 0 and 1. Vehicle Theft -9, 3 and 4. Theft from Vehicle -8, 1 and 8.

There were **4 arrests in June** – 2 felony and 2 misdemeanors. **July saw 2 arrests** – both felonies, and there were **5 arrests in August** – 3 felonies and 2 misdemeanors.

Vandalisms reported for June, July and August were 5, 5 and 7, respectively. Disturbing the Peace calls numbered 32, 26 and 37

Also attending the meeting was **Capt. Michael Lujan**, a 30-year law enforcement officer and commander of the Lake Elsinore Station

Capt. Lujan said the patrol presence in Temescal Valley is becoming more visible as the station adds more deputies. Five graduated in the August academy class and two more are expected to graduate the September class. Capt. Lujan said that the Lake Elsinore station will be one of the first fully staffed stations that serves the unincorporated areas.

Deadline nears for LEAPS protests, interventions

It's been a busy month for the **Federal Energy Regulatory Commission** (FERC), since its July 26 announcement that it had accepted the application for a license submitted by the **Nevada Hydro Company Inc.** for the controversial **Lake Elsinore Advanced Pump Storage** (LEAPS), project.

FERC also announced a 60-day period for the public to send protests and for interested parties/agencies to submit motions to intervene which gives citizens and groups the ability to challenge in court FERC's final decision on the project.

FERC, almost daily, is receiving protests and motions to intervene. Among notable intervention requests received are those from the **U.S. Forest Service**, city of **Lake Elsinore**, **Sen. Jeff Stone** of the 28th District and **Sen. Richard Roth** of the 31st District, and **Assemblywoman Melissa Melendez** of the 67th District. **Riverside County** now is working on its motion to intervene notice.

More locally, intervention notices have been submitted by **Glen Eden Sun Club** and the **Sycamore Creek HOA**. Read the notices:

Glen Eden Corporation
Sycamore Creek Community Association

Only a very few Temescal Valley residents have sent protests to FERC. Among them is **Richard Lewis**, captain of Trilogy's Riverside County Sheriff's Department Volunteers. His letter is published on this page as an example of points to touch on.

The deadline for protests and motions to intervene is quickly approaching – **Tuesday, Sept. 24**.

HOW TO SUBMIT A PROTEST

Protests can be submitted to FERC via its eComment page on the website:

https://ferconline.ferc.gov/QuickComment.aspx

Follow the directions on the page. It's best to prewrite your comments in a Word doc and then copy and paste into the eComment template. Begin your comments with:

"PROTEST" (in all caps)

NEVADA HYDRO COMPANY, INC. PROJECT NO. P-14227 Objections to acceptance of the Final License Application for the Lake Elsinore Advanced Pumped Storage Project Your name, address and phone number

And then list your reasons for protesting

Comments also can be snail-mailed to:

The Honorable Kimberly D. Bose, Secretary Federal Energy Regulatory Commission 888 First Street NE Washington, DC 20426

DEADLINE IS SEPT. 24

Here's the protest submitted by Trilogy resident Richard Lewis

I am extremely concerned about this project for the following reasons.

- **1.** This proposed project location is in a recognized high fire risk area.
- **2.** There are 4 paved road evacuation routes (Temescal Valley Road NB & SB and 15 Freeway NB & SB) from the Temescal Valley area. All 4 of those evacuation routes could be blocked by a single downed power line in the proposed project area.
- **3.** In the 10 days of the August 2018 "Holy Fire" firefighting air resources including observation planes, helicopters, air tankers and spotter planes flew repeated low altitude missions that took them over the hillside slopes where this project's power lines would run. That air support would have been greatly hampered by the existence of power lines.
- **4.** Water dropping helicopters utilized Lee Lake/Corona Lake which is in close proximity to the proposed power line route.
- **5.** During the "Holy Fire" the communications towers at the top of Santiago Peak were almost destroyed. These included the Riverside County Emergency (Fire and Sheriff and other agencies) PSEC Encrypted Communications facilities which would cost an estimated \$8 million and take 6 months to replace. This would give you a vivid picture of how easily structures, even high value ones, can be overrun by fire and destroyed in this high fire risk area.
- **6.** Another problem with the location of these power lines is the earthquake potential in the area. The Elsinore Fault which runs through this area is capable of producing a 7.2-7.5 magnitude earthquake. The location of the 1910 Elsinore 6.0 quake is estimated to be at 33° 45' N, 117° 27' W. That location is slightly south of the intersection of Temescal Canyon Road and Indian Truck Trail, and again, very close to the proposed project location.

http://scedc.caltech.edu/significant/elsinore1910.html

- **7.** After the residents of Temescal Valley experienced the "Holy Fire" they then had to deal with the debris flows and flooding risks that followed the fire. The rains following the fire triggered multiple warnings, alerts and evacuations for debris flow in several communities. The drastically damaged and irradiated topsoil in the area remains incapable of holding water and growing plants. It will be many years before the area will recover fully.
- **8.** The residents of Temescal Valley can't support a project that increases fire risks, could limit our firefighter's abilities to respond and could impact our already limited evacuation corridors for fire, floods or earthquakes.

For some, objections to the project may be about the appearance. My objections are about the negative impact to public safety. The project, as proposed, is ill-conceived and ill-located.

Sincerely, Richard Lewis

Edison reminds us about Public Safety Power Shutoff events

Have you signed up yet for SCE power outage alerts? It's easy to do

With fire season upon us, we received a press release from **Jeremy Goldman**, government relations manager for **Southern California Edison**.

According to SCE, it has made it a priority to invest in improvements to help prevent wildfires and act quickly when they occur to keep customers, employees and the public safe.

SCE is reinforcing the electrical grid with new technologies that help reduce wildfire risks, according to the release.

These include installing insulated wires that lower the chance of faults or short circuits that can create sparks when they come into contact with birds, squirrels and other animals, vegetation or debris.

SCE reports it also is installing composite poles that are stronger and more resilient than wood poles, as well as fast-acting fuses, advanced lightning arrestors and other devices that can react more quickly to minimize fire risks.

As reported in our August 2018 newsletter, one of the ways SCE is reducing wildfire risks is **Public Safety Power Shutoffs** (PSPS), in **High Fire Threat District** areas designated by the California Public Utilities Commission.

https://ia.cpuc.ca.gov/firemap

During these events, the utility may need to shut off power temporarily as a result of elevated weather conditions that can cause a power line to fall and spark, possibly creating a wildfire.

TWO COMMUNITY CLEANUPS PLANNED

Bob Hafner and members of the WeAreTV Beautification Committee will sponsor two community cleanups this month. The hours are 7 to 10 a.m. Saturday, Sept. 14 – along Temescal Canyon Road between Carl's Jr. and Campbell Ranch Road; meet at Tom's Farms. Saturday, Sept. 28 -- Old Mayhew Road, east of Temescal Canyon Road and south of Campbell Ranch Road. Bring gloves and wear closed-toe shoes – other supplies will be furnished. This is a good opportunity for teens who need community-service hours. Bring your form with you. If you have questions, email Bob:

bob.hafner@verizon.net

IVY FIRE: The Aug. 25 wildfire that burned on the east side of the I-15 in the Coldwater Wash area consumed 80 acres before quickly being extinguished by 101 firefighters and 17 engine companies from Cal Fire Riverside and San Bernardino, and the Riverside County Fire Department. Also utilized was a helicopter, two air tankers, three water tenders and two bulldozers. The cause is still being investigated.

Photo by ROB MUCHA

According to SCE, PSPS events are temporary and are meant to keep the community safe.

According to the release, SCE considers several factors and conditions before declaring a PSPS. These include, but are not limited to:

- High winds (including Red Flag Warnings declared by the National Weather Service)
- Low humidity
- Dry vegetation that could serve as fuel
- On-the-ground observations
- Fire threat to electric infrastructure
- Public safety risk

In advance of PSPS events, according to the release, SCE will notify local governments, the emergency management community and first responders. The utility also will attempt to notify affected customers approximately two days in advance of a potential power shutoff. This notification will be via email, text or phone call. The utility may also send another notice to customers about one day before a potential power shutoff. Customers also can be kept updated regularly on www.sce.com and SCE's social media channels. The utility also will notify affected customers when power has been restored.

To sign up for PSPS alerts: sce.com/OutageAlerts

CALENDAR

EVENTS

- <u>Garage Sale</u>: Sycamore Creek, 7 a.m. to 1 p.m., Saturday, Sept. 14, throughout the community.
- <u>Community Cleanup</u>: 7 to 10 a.m., <u>Saturday</u>, <u>Sept. 14</u>, along Temescal Canyon Road between the freeway and Campbell Ranch Road. Community service hours given to teens.
- Hazmat Awareness: Temescal Valley Disaster Response team training, 6 to 8 p.m., Wednesday, Sept. 18, Sycamore Creek Clubhouse, 25420 Mayhew Canyon Road. Must <u>REGISTER</u> by Sept. 17.
- NO SCHOOL TODAY: CNUSD students, Friday, Sept. 27.
- <u>CERT Training</u>: Presented by Riverside County Emergency Management Department, 5 to 9 p.m., Friday, Sept. 27 and 8 to 5 p.m., Saturday and Sunday, Sept. 28 and 29, Lakeland Village Community Center, Building D,16275 Grand Ave., Lake Elsinore. FREE! but you must attend all 22 hours of training. Must REGISTER.
- Community Cleanup: 7 to 10 a.m., Saturday, Sept. 28, Old Mayhew Road, east of Temescal Canyon Road and south of Campbell Ranch Road. Community service hours given to teens.
- Monarch Butterfly Presentations: 10 a.m. and noon, Sunday, Sept. 29, 7-Oaks Nursery, 21501 Temescal Canyon Road. Tracy Davis will show how to attract monarchs to your yards.
- Sycamore Creek Interpretive Center: A hands-on learning experience where all ages can study the local ecology and natural history of Temescal Valley through exhibits, displays, activities and touch tables. The center is open 9 a.m. to 3 p.m., Thursdays, Fridays, Saturdays, 11875 Indian Truck Trail. To register for presentations: 951-277-- 0219 or scic@rcrcd.org. FREE!
 - Day of Wonder -- For the entire family, 11 a.m. to 2 p.m., Saturday, Sept. 21. "Wildlife of the Desert." Registration required.
 - Storytime Among the Sycamores -- For toddler through pre-kindergarten, 10:30 a.m., Thursday, Oct.
 12. "Stellaluna," by Janelle Cannon, plus make a bat rocket. Registration required.
- <u>El Cerrito Public Library</u>: Many fun activities for the kids.
 Located behind El Cerrito Middle School, 7581 Rudell Road, 951-270-5012 or check out the September events <u>HERE</u>
- 100 Mile Club: For all schools, 8 to 9 a.m., every Sunday, Deleo Regional Sports Park. Adults must accompany runners.
- West County Bookmobile: 9 to 11 a.m., Tuesday and Friday, Deleo Regional Sports Park.
- Tom's Farms: FREE! Every weekend -- Craft Faire, 8 a.m. to 5 p.m.; Magic Show, noon and 2 p.m.; live music, 12:30 to 5 p.m. SPECIAL EVENTS: Halloween at the Farm: New this year -- Haunted Farmhouse, \$10. Haunted Train returns, \$5, and Tom's Pumpkin Patch. Opening the weekend of Saturday and Sunday, Sept. 28 and 29. LifeStream bloodmobile, 10 a.m.-3 p.m., Sunday, Sept. 29.

TEMESCAL VALLEY MEETINGS

- We Are Temescal Valley Education Committee: 9 a.m.,
 Saturday, Sept. 14, Cheese & Wine Shoppe, North Patio.
- <u>Temescal Heritage Foundation</u>: 9 a.m., Saturday, Sept. 21, Temescal Room, Trilogy Lodge, 24503 Trilogy Parkway.
- <u>Temescal Valley Water District Board Meeting</u>: 8:30 a.m., <u>Tuesday</u>, <u>Sept. 24</u>, 22646 Temescal Canyon Road. <u>AGENDA</u>
- We Are Temescal Valley Identity & Beautification
 <u>Committees</u>: 6 and 7 p.m., respectively, Thursday, Oct. 3,
 Tom's Farms Hamburger stand.
- We Are Temescal Valley citizens' group: 8:30 a.m., Saturday, Oct. 5, Trilogy Lake Center, 24477 Trilogy Parkway.

AUGUST PHOTO WINNER

The theme was "New in Temescal Valley."

Congratulations to **SUSAN MYERS**, a Sycamore

Creek resident, for this touching photo titled "Headed off to a NEW school year!"

calling all photographers! This month's theme is "Pampered Pets." There's certainly many of those in Temescal Valley! It's easy to enter the monthly contests. Photos must be shot by Temescal Valley residents in Temescal Valley – limit five photos per photographer. Tell us who you are and in which Temescal Valley community you reside. Give your entries a title. Shots are due by Monday, Sept. 30.

Email the photos and info to:

tvfairephotos@gmail.com

MEETINGS THAT AFFECT US

- Riverside County Board of Supervisors: 9:30 a.m., Tuesday, Sept. 17, 24 and Oct. 1 and 8, Administrative Center, 4080 Lemon St., Riverside. AGENDA | WATCH LIVE VIDEO
- Corona-Norco Unified School District: Study Session, 6 p.m.,
 Tuesday, Sept. 17; Business Meeting, 7 p.m., Tuesday, Oct.
 1, 2820 Clark Ave., Norco. NOTE: Vote expected to be taken at Oct. 1 meeting on whether to declare the Yee Property surplus in order to sell or trade it. AGENDA
- Riverside County Planning Commission: 9 a.m., Wednesday, Sept. 18 and Oct. 2, Administrative Center, 4080 Lemon St., Riverside. AGENDA | WATCH LIVE VIDEO

 10, 545 Chaney St., Lake Elsinore. <u>AGENDA</u>

Do You Want A High School in Temescal Valley?

WHAT: Corona-Norco Unified School

District Board meeting

WHEN: 7 p.m., Tuesday, Oct. 1

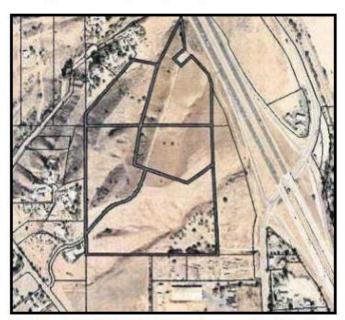

WHERE: District Office Board Room/

Norco Council Chambers 2820 Clark Ave., Norco

NO NEED TO SPEAK -- BE THERE TO SHOW YOU WANT CNUSD TO KEEP THE PROPERTY

DIRECTIONS From I-15 North

- Exit at Second Street
- Turn Left onto Second Street
- Turn Right onto Hamner Avenue
- Turn Left onto Market Street
- Turn Right onto Clark Avenue and left into School District parking lot
- Continue north and drive around to the rear of the buildings to Norco City Hall parking lot

THE CNUSD PROPERTY: The five parcels totaling 55 acres are bordered by the I-15 on the east, Mission Clay and Tom's Farms to the south, and the Lawson Road rural homes to the west and north.

BACKGROUND and **UPDATE** . . .

Staff of the Corona-Norco Unified School District says enrollment is declining and wants to sell property the District purchased in 2004 to be used for Rancho Serrano High School in Temescal Valley.

In 2006, voters passed the \$250 million **Measure U** bond that called for the construction of seven new CNUSD schools. Six schools were built – the Temescal Valley high school was not.

To sell the property, under state law the district must declare it surplus and appoint a citizens' committee to make that recommendation to the board. The committee met four times and its final recommendation was to declare the property surplus. It was not a unanimous decision. The vote was 3-2 in favor with one abstention.

In a staff presentation to the board on Aug. 20, it appeared it's the intention to have the property re-zoned to sell it for a higher density housing development.

To offset staff intentions to convince the board to sell the property, about 75 residents showed up at the Sept. 3 board meeting. Speakers were compelling and board members were attentive to what residents had to say. Many more questions were asked by the board during this meeting than were asked on Aug. 20. It is probable the board will make a decision at the Oct. 1 meeting. **WE MUST PACK THE BOARD ROOM!**

According to Kelli Noss, chairman of the We Are Temescal Valley Education Committee, "Selling the CNUSD property will close the chapter on a high school in Temescal Valley. Once the property is gone, there is nothing physically keeping CNUSD to their word of bringing a high school — that's already been paid for through Measure U taxes — to the valley."

If you support this stance, please attend the Oct. 1 CNUSD Board meeting.

County Disaster Response Team Hazmat Awareness

September 18, 2019 from 6:00 pm to 8:00 pm

Sycamore Creek Clubhouse

25420 Mayhew Canyon Road, Temescal Valley, CA 92883

Training will provide volunteers the ability to:

- Recognize potential/actual Hazmat incidents
- Conduct initial identification & assessment
- Safely isolate & make proper notifications

RSVP by September 17, 2019, <u>click here</u> to register.
